

PROFILE SUMMARY

A data analyst with over 7 years of experience transforming data into actionable insights that support strategic business and management decisions. Skilled in building and orchestrating data pipelines, data modeling, and developing interactive visualizations. Proven ability to validate and analyze large datasets to develop globally adopted metrics, achieving significant savings in time, cost, and resources.

EXPERIENCE

Senior Data Analyst

PJS Global

August 2024 – Till Date

- Conduct in-depth analysis of production and financial data to uncover trends, patterns, and insights that inform business strategies and enhance operational efficiency.
- Design, develop, and maintain Power BI dashboards and reports to visualize KPIs and critical metrics relevant to sales and production.
- Collaborate with cross-functional teams to gather business requirements and translate them into effective data models, schemas, and database structures.
- Perform data quality assessments, resolve discrepancies, and implement measures to ensure accuracy, consistency, and reliability of data.
- Develop and optimize SQL queries to support efficient data extraction, transformation, and reporting.
- Manage databases with focus on ensuring data security, integrity, and optimal performance.
- Manage end-to-end ETL processes, leveraging ETL tools to extract, transform, and load data.
- Provide technical leadership and mentorship to junior data analysts, fostering skill development and knowledge sharing.

Data and Report Analyst

Dangote Cement Plant

October 2016 – August 2024

- Generate daily reports and conduct detailed downtime analysis to assess performance across multiple sections, delivering insights that support strategic decision-making.
- Develop interactive, dynamic visualizations to monitor production performance trends and effectively communicate findings to stakeholders.
- Enhance reporting efficiency by automating repetitive daily tasks and processes.
- Collaborate with cross-functional teams to capture business requirements and deliver tailored, data-driven solutions.
- Ensure continuous learning to stay current with industry best practices, trends, and emerging technologies in data analysis.

EDUCATION

MSc Chemical Engineering
University of Lagos, Akoka, Lagos
2013 – 2014

B.Eng. Chemical Engineering
University of Benin, Ugbowo, Edo
State, Nigeria.
2005 – 2010

SKILLS

Data Visualization tools: Advanced

Excel, Power BI, Tableau

Programming: Python

Machine learning: Regression,
Classification and Clustering

ETL tools: SSIS, DBT

Database Management: PostgreSQL,
MS SQL, MySQL, MongoDB

Orchestration tools: Airflow

Cloud Service: Azure, GCP

CERTIFICATIONS

- Microsoft Certified: Fabric Data Engineer Associate
- Microsoft Certified: Azure Data Fundamentals
- Microsoft Certified: Azure Fundamentals
- Microsoft Certified: Power BI Data Analyst Associate.
- Microsoft Certified: Expert in Excel 2016
- Microsoft Certified: Specialist in Excel 2016
